Vincent de Paul projects.

# Stage 2 of the Plenary Council consultations at St Carthage's

Stage 2 of the Plenary Council consultation process is called communal discernment. Some thirteen parishioners have responded to the call for expressions of interest to take part in discussing and making recommendations for local and national action. The focus is on the six themes that emerged from Stage 1 of the consultation process (see the Plenary Council website for more details).

The meeting for the St Carthages group will be held at the Parish Centre on Monday 18 November, 7.30 - 9 pm.

Richard and Jan Curtain are convening the meeting. If you want to take part, please contact them at [richard@curtain-consulting.net.au](mailto:richard@curtain-consulting.net.au) for further details about the process.

# Columban Art Calendar

For many years this traditional Catholic Calendar has supported the work of the Columban Mission Team.

The Columbans would be one of the most admired groups that works in the third world.

Their respect for people cultures where they work is remarkable and their priority to address issues of injustice amongst the poor is outstanding.

Each year St Carthage's Parish sells 60 copies of this calendar.

Available on table towards the back of the church \$7

UNIVERSITY  
OF DIVINITY

## **GENERATION X RESEARCH PROJECT INFORMATION**

Christina Westmore-Peyton is a Doctoral student at the University of Divinity who is doing a research project investigating Generation X and their relationship to the Catholic Church. Generation Xers were born between 1965 and 1980, now aged 39 to 54 years of age.

The people that Christina would like to interview grew up in a family where both parents were active and participating Catholics, and regularly took their children to Mass. They would have been to Catholic schools for most of their schooling. They may or may not be Church attenders now or may have become completely disaffiliated from the Church. She wants to find out about their spiritual and religious journey.

Christina is hoping to interview about 20 - 25 Gen Xers. Are you in this age-group and interested in participation? If so, Christina would be pleased to hear from you, and will provide further information about the study to anyone interested in taking part. The parents of Gen Xers are welcome to pass on this information to their adult children or other people in this age group whom they think may be interested in this valuable research.

Christina believes this project is important because it may help explain why the majority of Gen Xers no longer practice their faith in the way that their parents did.

All possible steps will be taken to ensure strict confidentiality, and interviews will take place in a safe environment chosen by the interviewee and take between 1 - 1.5 hours.

In January 2018 the Victorian Government established the Treaty Advancement Commission as an independent office, to facilitate the desire of the Government to establish treaties with Victoria's First Peoples. The Commission is tasked with organising the First Peoples' Assembly of Victoria as the authoritative body, to develop the 'ground rules' for these treaties.
