

TASTE OF SPRING

SWEET MAGNOLIAS

The images I am sharing with you are my response to Fr Tony requesting that we may want to share our creative gifts with the parish community.

I am recovering from surgery and I am grateful to God for " good care and expertise " from the "health community" and "good news" about my recovery. In Matt 6:26 we are urged to consider the "lilies of the field" and to handover our worries to God.

God gifts us through nature as it feeds and sustains us, and also through nature we can reflect on the abundance which our Heavenly Father bestows on us, without us having to do anything.

The abundance of food and also the abundance of beauty and colour found in nature.

May we find hope and joy this Spring by enjoying God's free gifts to us.

Rose B
