

# Hymnody of Earth

*The Hymnody of Earth* is a captivating collection of music inspired by the poetry of Kentucky farmer, philosopher and poet Wendell Berry. Malcolm Dalglish's song cycle breathes life into Berry's profound reflections on nature, community, and the human spirit. The Choir of Newman College is joined by hammer dulcimer player Mike Mews and percussionist Therese Ng, as they bring this heartfelt tribute to the earth and its rhythms to vibrant life.
